

Furniture made of marble

Un'common is a Polish furniture brand founded by Gosia Korycka and Maciek Korycki in Łódź, Poland. Our vision is simple and honest: we value natural, durable materials combined with clean and minimalist forms. We aim to create high-quality, timeless furniture that will enhance interiors with a piece of nature. Nothing can produce this effect quite as good as marble.

It is a beautiful, refined, natural material that has been used for centuries in architecture, art and everyday life. Marble is a natural material formed in a very complex process. It is virtually impossible to extract two identical pieces of stone. In our opinion, in a world ruled by mass production, this thrill of surprise is a bit of genuine luxury, reserved only for natural materials and their enthusiasts.

During 3 DAYS OF DESIGN we are glad to present our latest series LINEE. It is furniture with a clean and monolithic form that emphasizes the beauty of its materials. The unique finish of natural travertine, matte quartzite and natural oak veneer exudes warmth and elegance but also makes the furniture even more Un'common.
