

# un'common

Catalog 2025

Un'common is a Polish furniture brand founded by Gosia Korycka and Maciek Korycki in Łódź, Poland. Our vision is simple and honest: we value natural, durable materials combined with clean and minimalist forms. We aim to create high-quality, timeless furniture that will enhance interiors with a piece of nature. Nothing can produce this effect quite as good as marble.

Marble is a beautiful, refined, natural material that has been used for centuries in architecture, art and everyday life. It is a natural material formed in a very complex process. It is virtually impossible to extract two identical pieces of stone. In our opinion, in a world ruled by mass production, this thrill of surprise is a bit of genuine luxury, reserved only for natural materials and their enthusiasts.

**un'common**

## Un'common Material overview:
