The Linee series is furniture with a clean and monolithic form that emphasizes the beauty of its materials. The unique finish of natural travertine, matte quartzite and oak veneer exudes warmth and elegance but also makes the furniture even more *uncommon*.

We change the way of thinking about furniture made of natural stones as refined pieces with an impeccable shine and smoothness. The natural rawness of travertine remind us the true, natural origin of the stone

Oro Side table

The Oro stool from the LINEE series can be an excellent side table and an even better bedside table – it will find use in any room of your home. One side of the furniture hides a decorative detail. It is available in two types of stone: unique striated travertine or elegant Taj Mahal quartzite with a gorgeous satin finish.
